

Dr. Erika Berman Rosenzweig is a Professor of Pediatrics (in Medicine) at Columbia University Medical Center – New York Presbyterian Hospital where she has served as Director of the Pulmonary Hypertension Comprehensive Care Center since 2008 serving adults and children with pulmonary hypertension. She is also Director of the CTEPH Program and Associate Chief of the Division of Pediatric Cardiology at Columbia University Medical Center.

Dr. Rosenzweig has been a Principal Investigator of several major clinical trials of drug therapies for pulmonary arterial hypertension, and is a principal investigator on the NIH PVDOMICS trial. Dr. Rosenzweig has published more than 100 articles in this field and has served as Editor in Chief, of the journal *Advances in Pulmonary Hypertension* and is currently on the Editorial Board of *CHEST*.

She has served at the Chair of the Scientific Leadership Council, Chair of the Accreditation Review Committee, and as a Board of Trustees member for the Pulmonary Hypertension Association. She is Vice-Director of the Pediatric Pulmonary Hypertension Network (PPHnet).

Dr. Rosenzweig has a special interest in the use of mechanical support (ECLS) for bridging pulmonary hypertension patients to transplant and recovery, and Dr. Rosenzweig's interest in Eisenmenger physiology has also informed her recent focus on the use of novel techniques such as the unidirectional-valved shunt (a modified reversed Potts shunt) for advanced forms of pulmonary hypertension.
